## Education

**Minnesota State University** Expected May 2028
*Bachelor of Science in Computer Science* GPA: **4.0**
*Relevant Coursework:* Data Structures & Algorithms, Object-Oriented Programming, Java Development, Software Engineering, Database Systems, Mathematics

## Professional Summary

Computer Science student and former Software Engineer Intern experienced in Java, Python, C++, JavaScript/TypeScript, SQL, React, REST APIs, relational databases, cloud tools, and testing. Product-minded collaborator who builds reliable, data-driven solutions across software, AI, cloud, fintech, and user-focused technology.

## Professional Experience

**Software Engineer Intern** Jun 2023 – Aug 2023
*Corelinq* Remote

- Built **3+ full-stack applications** that automated operations reporting and reduced manual data entry by **30%**
- Shipped **8 production features** end-to-end for client workflows supporting **200+ monthly users**
- Resolved **25+ production defects** through root-cause analysis, cutting average resolution time by **35%**

**Senior IT Solutions Specialist** Jan 2026 – Present
*Minnesota State University* Mankato, MN

- Resolve **40+ weekly incidents** for **15,000+ users** across endpoint, account, and network systems within **4 hours**
- Maintain a **95%+ closure rate** across **160+ monthly tickets** and authored **20 knowledge-base articles**
- Found **12 recurring failure patterns** and coordinated **3 teams** to reduce repeat incidents by **20%**

**Computer Science Teaching Assistant** Aug 2026 – Present
*Minnesota State University* Mankato, MN

- Lead **3 weekly Java and algorithms sessions** for **30+ students**, improving assignment pass rates by **18%**
- Review **45+ weekly submissions**, reducing repeat logic and runtime errors by **25%** through targeted feedback
- Co-designed **8 data structures and recursion exercises**, improving assessment scores by **15%** across **30+ students**

## Technical Projects

**CommunityConnect** | *TypeScript, React, Node.js, PostgreSQL, AWS, Docker*

- Building a cloud platform supporting **5,000+ community members** across events, mentorship, and resource discovery
- Serving **28 REST endpoints** below **120 ms p95 latency** with authentication, search, and role-based access
- Developing **52 automated tests** with **92% coverage**; Docker and CI reduce deployment time by **60%**

**Stock Tracker** | **GitHub** | *Java, REST APIs, Object-Oriented Design, Git*

- Built a Java portfolio tracker supporting **50+ positions** with market data refreshed **every 60 seconds**
- Validated REST API correctness across **20+ edge cases**, preserving data integrity through invalid inputs and outages
- Delivered **6 analysis periods and 9 CLI commands**, resolving **12 defects** through **18 edge-case tests**

**The Unofficial Guide** | **GitHub** | *Python, FastAPI, PostgreSQL, React, Web Scraping*

- Built unified search across **500+ reviews from 3+ platforms** for a centralized student resource
- Improved retrieval precision by **40%** through automated evaluation, controlled experiments, and failure analysis
- Optimized responses to **under 5 seconds** for a university community of **15,000+ students**

## Technical Proficiency

**Languages:** Java, Python, C++, C#, JavaScript, TypeScript, SQL, HTML, CSS **Development:** React, Node.js, FastAPI, REST APIs, Object-Oriented Design, Data Structures & Algorithms
**Cloud, Data & Tools:** AWS, Docker, PostgreSQL, pandas, NumPy, scikit-learn, Git, GitHub, Linux, CI/CD, Unit Testing, Agile, Code Review, AI-Assisted Development

## Leadership and Honors

- **Assistant Vice President, NSBE**, supporting student programming, collaboration, and professional development
- **Marketing and Poster Designer, ColorStack**, creating clear visual materials for student events and outreach
- Academic distinction: **4.0 cumulative GPA** in the Bachelor of Science in Computer Science program at Minnesota State University
